***Claim Rejections - 35 USC § 112***

1. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, last line, there is a lack of antecedent basis for the well or second reservoir. This renders the claim confusing as it is unclear if the claim depends from the proper claim or should positively recite the structures.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Witt, Jr '450.

Witt, Jr. shows a reservoir/bottle 10, 14; spray mechanism 28 having a trigger; dip tube 30 being below a portion of the trap means; trap means 20 being a baffle, the top part of the baffle as seen in Figure 9 being the second means/baffle for maintaining the dip tube in place; well/second reservoir 22; grip portion 24; and opening at 26.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schwartz, Witt, Jr. '150; Ellion and Appleby show other spray dispensers with fluid traps.
